

## SWIMEO X | COUNTER-CURRENT SWIMMING

The **SWIMEO X** model is the flush-mounted version in the SWIMEO range. It is designed for integration into a swimming pool during the construction phase.

### A PERFECT COMPROMISE

#### COMFORT

SWIMEO offers the mono-turbine version with the widest flow. At 1.5 m from the discharge outlet, the flow attains a width of 80 cm.

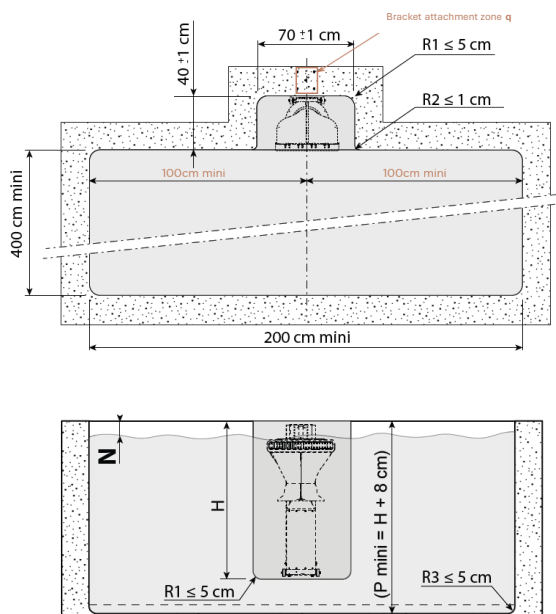

#### POWER

SWIMEO is available in 2 power levels, to suit all swimmers

- **400m<sup>3</sup>/h**: for competitive swimmers who can swim against a 1'30"/100m current. These customers are experienced in triathlons and open-water swimming. They want to improve their performance by training at home.
- **200m<sup>3</sup>/h**: for customers who swim for leisure and to stay in shape. They can improve their well-being by swimming or by using the turbine as a massage solution.

## INTEGRATION

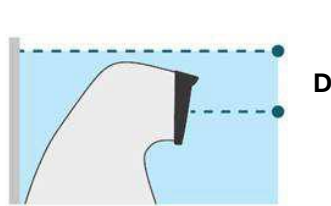

The SWIMEO X turbine is integrated into a recess behind a protective grille (supplied in the integration kit)

Protective grille of the  
SWIMEO X

## FLOW POWER AND INTEGRATION

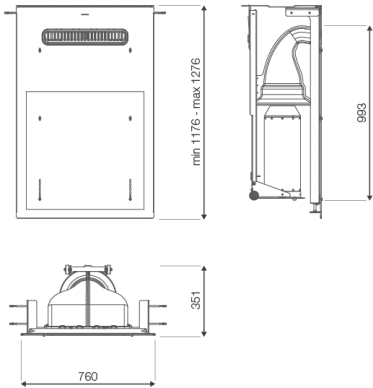

The turbine is fully immersed in the water. Its immersion depth affects the power and quality of the flow.

| Turbine depth<br>D | Sensation of<br>power | Comfort of the<br>flow |
|--------------------|-----------------------|------------------------|
| -7 cm              | +++                   | +                      |
| -9 cm              | ++                    | ++                     |
| -11 cm             | +                     | +++                    |

## LOGISTICS

### PALLET 1

- 1 SWIMEO A turbine
- 1 power supply box
- 1 remote control receiver
- 2 watertight remote controls
- 1 Bluetooth antenna
- 1 technical instruction manual

### PALLET 2

- Integration kit  
made of 316 L  
stainless steel

### PALLET DIMENSIONS

- Pallet 1: L80 X W60 X H125 cm
- Pallet 2: L120 X W180 X H30cm

### WEIGHT

- Pallet 1: 70 kg
- Pallet 2: 30 kg
